TEACHERS FEEDBACK ON CURRICULUM-2018-2019

Sl. No	Queries	Percentage Response (out of 60)				
		Excellent	Very Good	Good	Average	Poor
1	Syllabus is suitable to the course	55.7	37.7	6.6	0.0	0.0
2	Syllabus is need based.	36.1	49.2	14.8	0.0	0.0
3	Aims and objectives of the syllabi are well defined and clear to teachers and students.	49.2	39.3	11.5	0.0	0.0
4	Course content is followed by corresponding reference materials.	44.3	42.6	13.1	0.0	0.0
5	Sufficient reference material and books are available for the topics mentioned in the syllabus.	37.7	41.0	19.7	1.6	0.0
6	The depth of the course content is adequate to have significant learning outcomes	24.6	60.7	14.8	0.0	0.0
7	Syllabus is sufficient to bridge the gap between industry standards /current global scenarios and academics.	27.9	42.6	19.7	9.8	0.0
8	The timely coverage of syllabus is possible in the mentioned number of hours	31.1	44.3	14.8	8.2	1.6
9	The curriculum has been updated in terms of demand	36.1	44.3	19.7	0.0	0.0
10	The practical's enabling to develop experimental, design, problem solving and analysis skills of the students	19.7	49.2	27.9	0.0	3.3
11	The curriculum is sufficient to cover the programme / course outcomes	27.9	59.0	13.1	0.0	0.0

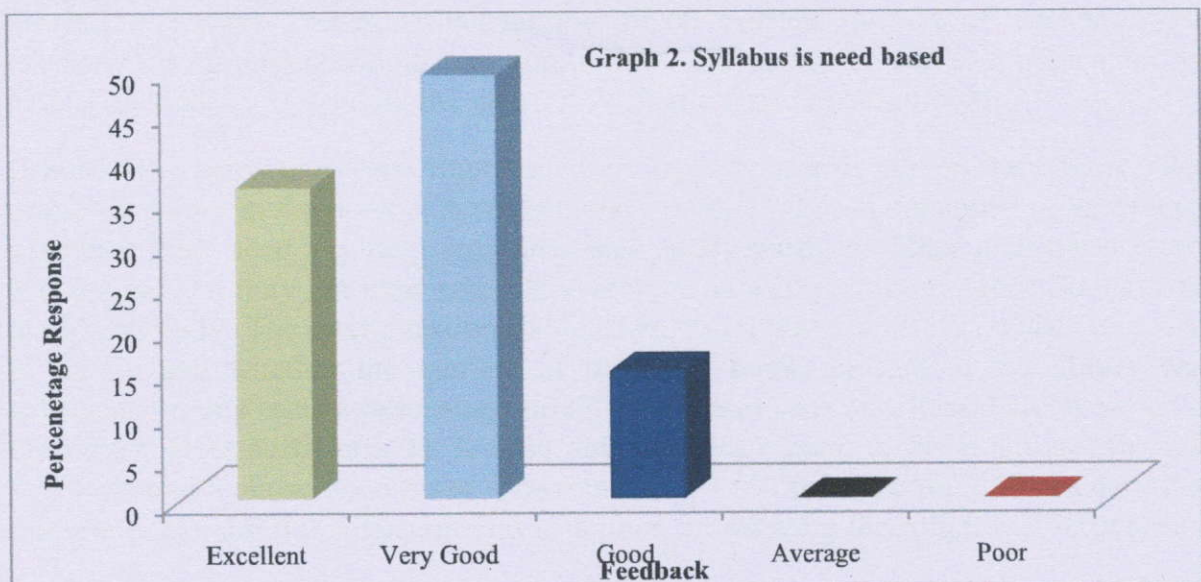

Graph1- For every program or a course a syllabus is prescribed in order to cover the whole course and give the students a complete idea about the subject. For that purpose the syllabus provided for the course must be suitable to the particular course. On analyzing the particular question the teachers has given a feedback on the topic. In representing it in a graph the vertical line indicates the percentage response and the horizontal line indicates the feedback. Out of 60 teachers a percentage of 55.7% voted for the column of excellent. While 37.7% chose very good, the rest 6.6% voted for good.

Graph2- The question to which the teachers have to give feedbacks on was about the syllabus they are teaching. The teachers were asked to comment on the issue that

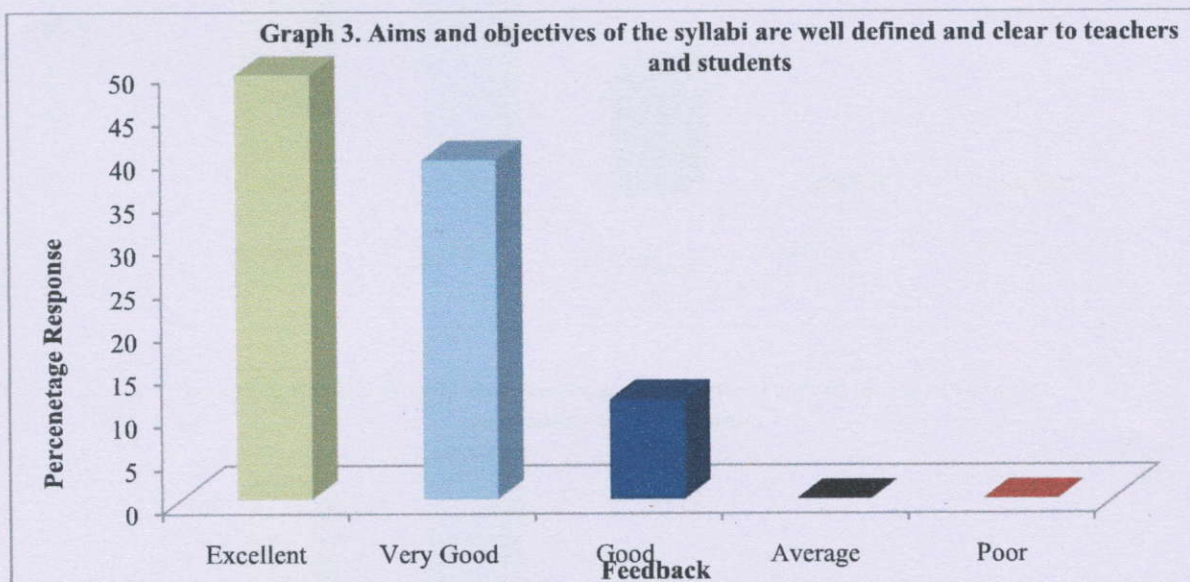

whether the syllabus is need based or not. And the feedback was given like excellent, agree, and disagree etc. In the graphical representation the vertical line shows the percentage response and the horizontal line shows the feedbacks collected from the staff members. Out of a total number of 60 teachers a total of 36.1% chose excellent for that the syllabus is need based. While 49.2% of teachers voted very good to the point, the remaining 14.8% had a good opinion regarding the syllabus.

Graph2- The question to which the teachers have to give feedbacks on was about the syllabus they are teaching. The teachers were asked to comment on the issue that whether the syllabus is need based or not. And the feedback was given like excellent, agree, and disagree etc. In the graphical representation the vertical line shows the percentage response and the horizontal line shows the feedbacks collected from the staff members. Out of a total number of 60 teachers a total of 36.1% chose excellent for that the syllabus is need based. While 49.2% of teachers voted very good to the point, the remaining 14.8% had a good opinion regarding the syllabus.

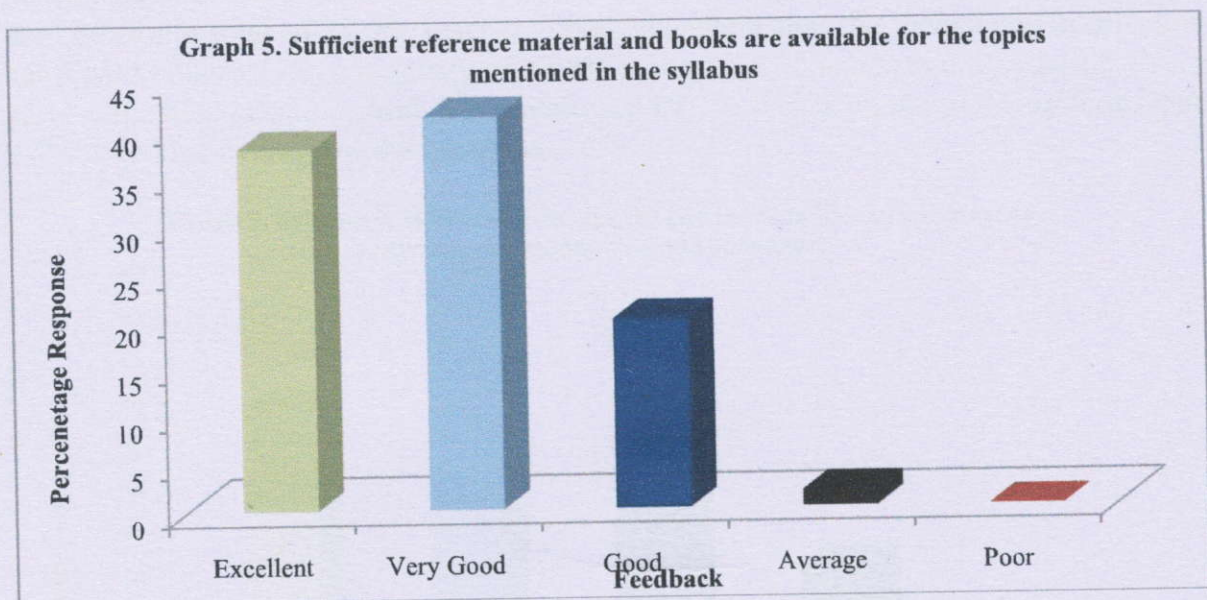

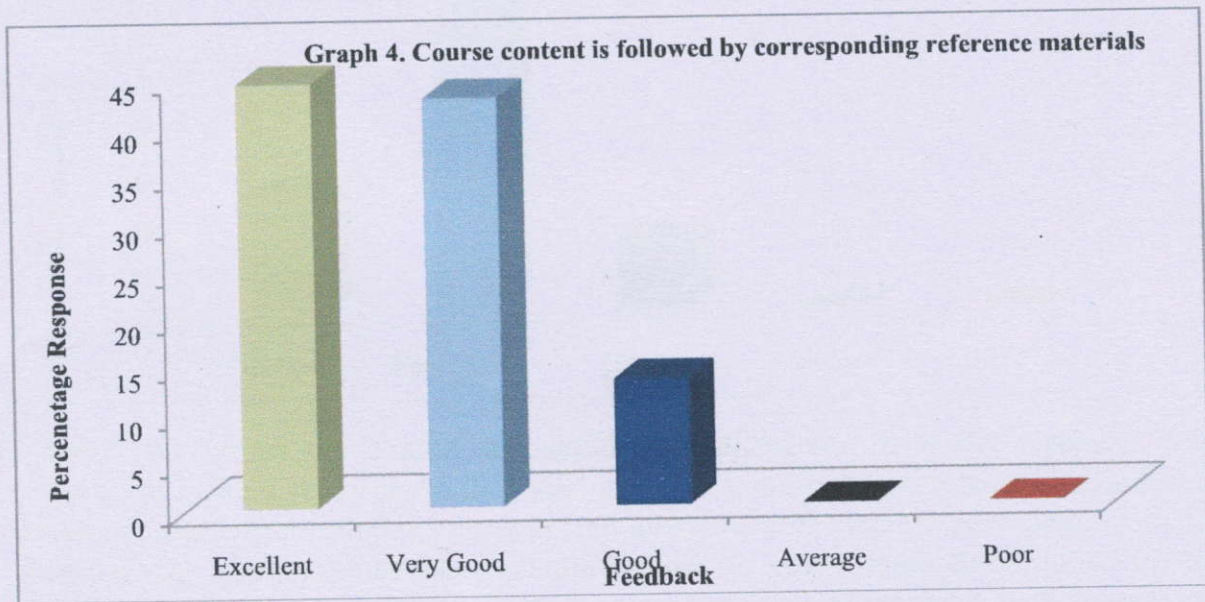

Graph3- To a teacher the syllabus and the course must be clear as they have to teach the students. As much as the syllabus is needed the teachers must know about the aims and objective of the course. As the question was asked to the teachers about the aims and objectives they were instructed to answer whether the aims and objectives were clear to them. In the graphical representation the vertical line shows the percentage response and the horizontal line shows the feedbacks collected from the staff members. 49.2% of teachers out of the total 60 chose excellent for the aims and objectives were clear to them. While 39.3% voted for very good to the question the rest 11.5% said the knowledge of them regarding the aims and objectives are good.

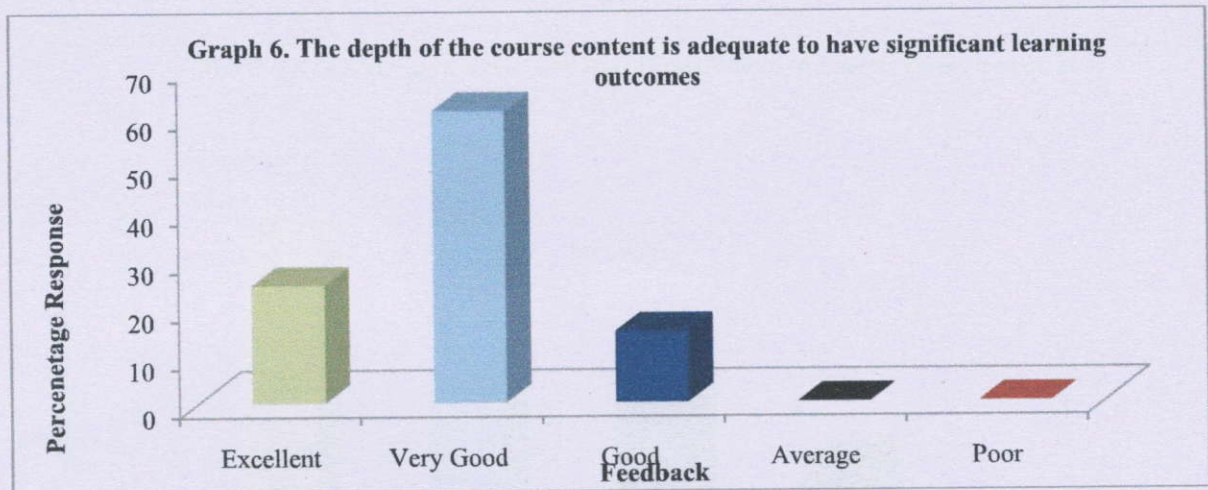

Graph4- For every course and syllabus there are many books and texts prescribed. Other than every primary text there are many materials which may include secondary materials, reference books etc. The next question to which the teachers are requested to give feedbacks was about whether the reference books prescribed to the students were relevant, updated and appropriate. In drawing the graph the vertical line shows the percentage response and the horizontal line shows the feedbacks collected from the staff members. Out of a total number of 60 teachers 44.3 % of teachers chose excellent the reference books are appropriate and updated. While a percentage of 42.6% only chose very good, the next 13.1% had a chose good opinion.

Graph5- A major and very important part of a course is its primary books and reference books in the library. A student and a teacher always depended to the library whenever they need any help regarding their study purpose. Other than the primary text the student may get their secondary sources as well as the reference books from the library only. The next question the teachers rated was about the number of books in library and whether the number of reference books present in the library was sufficient. In this issue a percentage of 37.7 teachers chose excellent that the books in the library were sufficient. 41 % only voted for very good to the point and the rest 19.7% shared a chose good point. The remaining 1.6% from the total 60 teachers said that the books are not sufficient and it is poor. In drawing the graph the vertical line

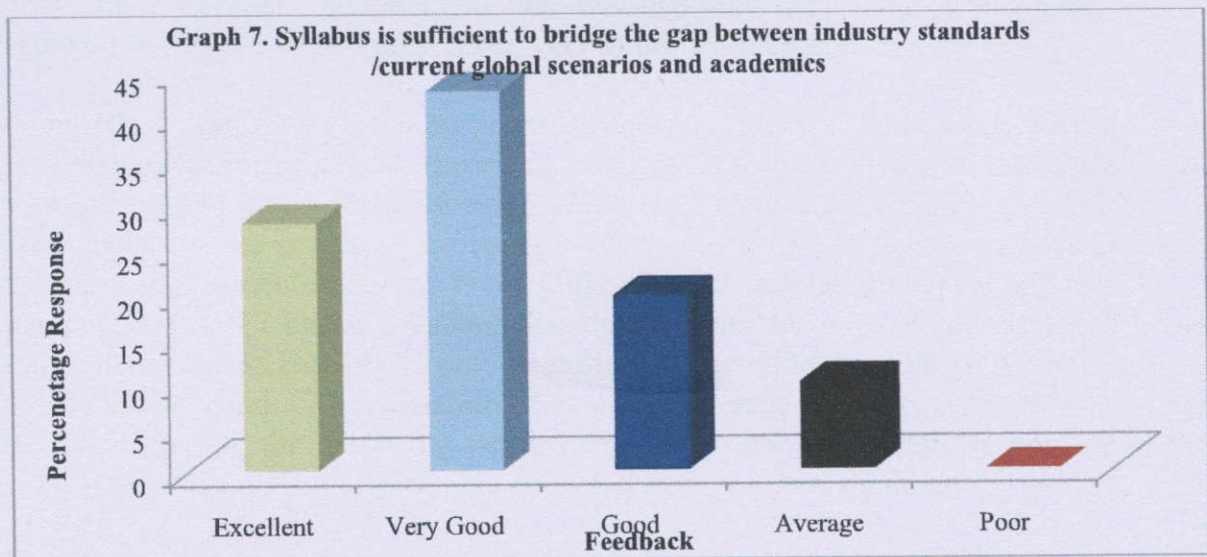

shows the percentage response and the horizontal line shows the feedbacks collected from the staff members.

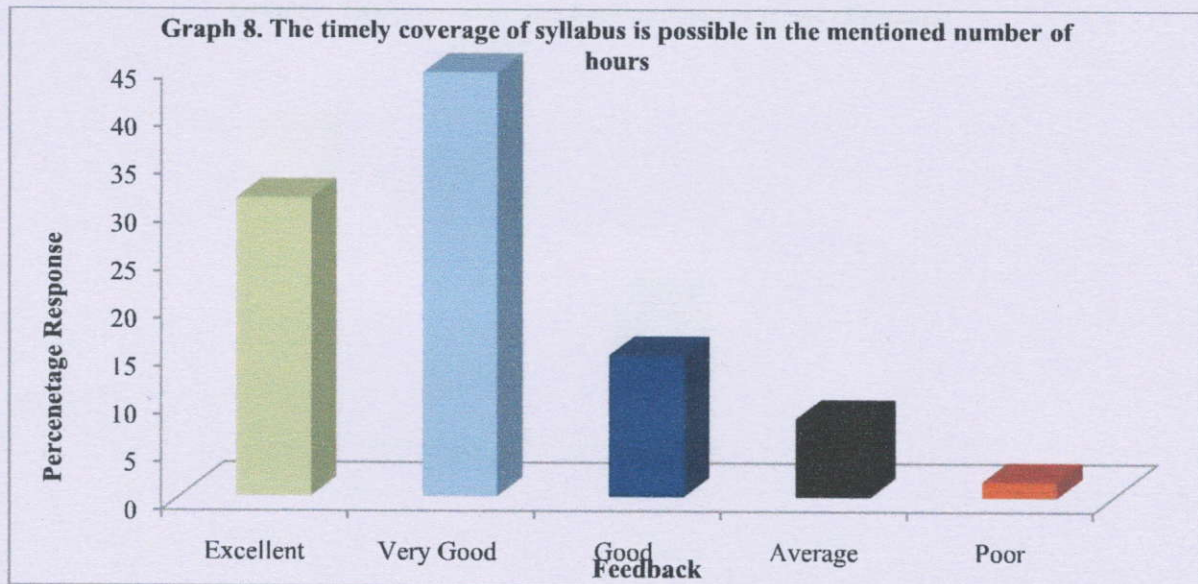

Graph6- As far as the learning outcomes and the course is concerned with the teachers were required to give a correct feedback on the depth of the course content and its significance in the learning outcomes of the student. In drawing the graph the vertical line shows the percentage response and the horizontal line shows the feedbacks collected from the staff members. To the question 24.6% of teachers out of the total number of 60 teachers have voted for the column of excellent. The next column very good got a number of votes from 60.7% of teachers. 14.8% of people were of the opinion that they will choose the column of good.

Graph7- As far as the course and syllabus is concerned with the teachers were required to make a research on the syllabus had a good balance between the industry standards and current global scenarios and academics. So the teachers have to make sure that the students also have an application in every topic they study. In the graphical representation the vertical line shows the percentage response and the horizontal line shows the feedbacks collected from the staff members. On analyzing the question a total of 27.9% teachers chose excellent that the theory and application has a well balance. But a majority of 42.6% among the 60 teachers only voted for very good with the question. And the remaining 19.7% had a chose good opinion. The 9.8% voted for average to the question.

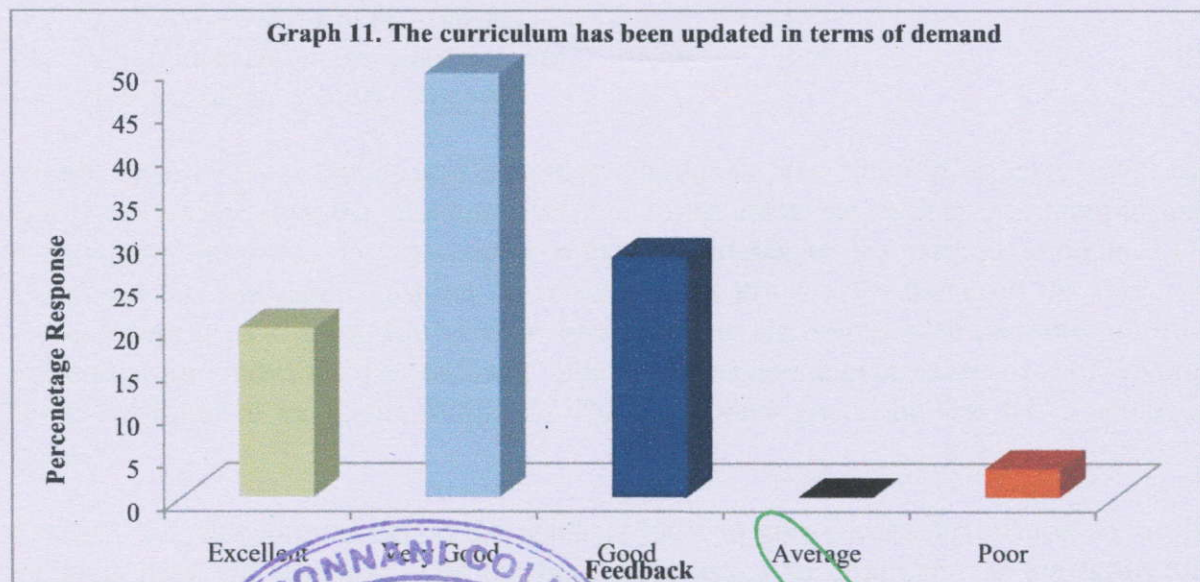

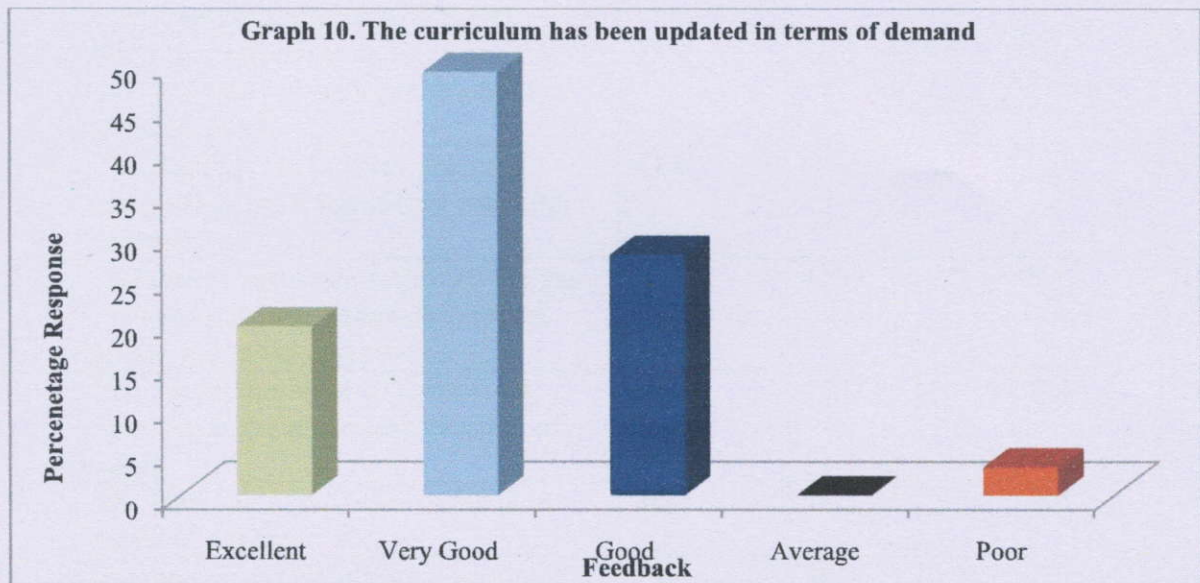

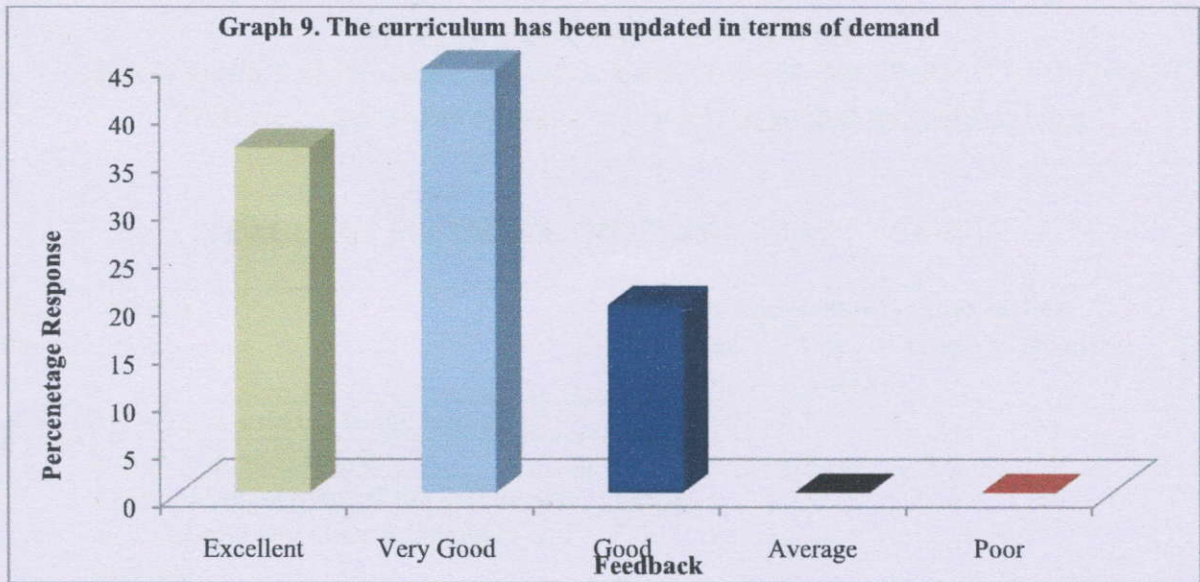

Graph8- The next graphical representation gives us a clear idea about the syllabus and the relevance of the semester system. The question was about the timely coverage of the syllabus in the possible mentioned hours. In the graph the vertical line shows the percentage response and the horizontal line shows the feedbacks collected from the staff members. To the question a percentage of 31.1 out of the total 60 teachers chose excellent to its relevance. While 44.3% only voted for very good to the question, 14.8% are of chose good opinion. The remaining 8.2% voted average the question and 1.6% for the column poor.

Graph9- When asked about the updating of the curriculum in terms of the demand the teachers have considered the all-round development that the curriculum had. They also considered the role of curriculum in giving the students a bet opportunity to mould them in a best fit in and also to portray them in their best ways. In their graphical representation the vertical line indicates the percentage response and the horizontal line indicates the feedbacks. Out of the total of 60 teachers a percentage of 36.1 chose excellent and believe that the facilities they have is adequate and is satisfactory. While 44.3% only chose very good, 19.7% share a chose good.

Graph10- As far as the teaching practices and the practical hours are concerned with the teachers was instructed to do an analysis on the practical hours and tutorials. They were directed to give a feedback on whether the students get enough practical hours to do their lab works and there are enough tutorials with the students in weeks and also to make the students analyze their skills. Out of a total umber of 60 teachers a percentage of 19.7 chose excellent that the students get enough practical hours and tutorials in a week. But 49.2% only voted for very good to the point and the remaining 27.9% chose good. The remaining 0% chose average and the last 3.3% voted for poor. In drawing the graph the vertical line shows the percentage response and the horizontal line shows the feedbacks collected from the staff members.

Graph11 - The system nowadays followed in the collegiate education level is the semester system. As it is introduced, the course, syllabus, and arrangement everything had changed according to the convenience of the semester system. The next point to which the teachers have to give a review is whether the curriculum mold into the semester system. In the graphical representation the vertical line shows the percentage response and the horizontal line shows the feedbacks collected from the staff members. Out of a total number of 60 teachers 27.9% voted for excellent, 59% of teachers voted for very good and the remaining 13.1% shared a chose good.
